**A real innovation  
for the camper**

# **WATER DISINFECTOR**

makes OZONE for  
water that's always pure

**WATER DISINFECTION**  
in a camper you need  
**UNCONTAMINATED WATER,**  
that's why you need

## **WATER DISINFECTOR**

to make sure every tank load  
of water is  
**BACTERIOLOGICALLY PURE**  
even in the worst case scenario.

Chemical sanitizing additives:

- *don't guarantee total disinfection*
- *change the taste of the water*
- *aren't effective against the formation of algae*
- *are a continuous cost and often have contraindications for your health.*

sanitizing chemical products don't  
destroy all bacteria, viruses, algae and  
moulds, but

**OZONE DOES !!!**

A great success in a variety of fields,  
one of the most important was the

### **FIRST CERTIFIED OFFICIAL PROTOCOL FOR THE DISINFECTION OF AMBULANCES**

After many tests DIMENSIONE  
OZONO has designed, built and  
produced

## **WATER DISINFECTOR**

It's an innovative, technologically advanced system, that doesn't use chemical products but Ozone, exploiting its special properties.

Avoid the costs of bottled water, problems with weight and disposing of empty bottles, gaining more storage space.

**WATER DISINFECTOR** supplied complete with all components with meticulous attention to detail easy, fast installation - independent of existing system.

What is Ozone?

It's a natural gas universally used as a disinfectant which doesn't leave CHEMICAL residues, because it reconverts spontaneously into oxygen moreover Ozone attacks particles in the groups carrying smells and destroys them, so IT DOESN'T MASK SMELLS, IT ELIMINATES THEM !!

What's it for?

for disinfecting water in tanks, making it BACTERIOLOGICALLY PURE and completely COLOURLESS, ODOURLESS TASTELESS.
